Introduction

Thank you for taking the time to review my portfolio.

Over the past thirteen years I have had tremendous opportunities to work with a variety of clients. My skill set is composed of a broad range of technical and traditional processes as related to design, marketing and business development. I have worn many hats throughout my professional career and consider myself to be a solution provider rounded out with exceptional customer service. Everyone is my client. Their needs are my challenges and my resources are the tools I use to execute and satisfy their business appetites.

I am very fortunate to say that I love what I do for a living. Along with this portfolio, I've attached my resume for your review. You can also find out more information about me, both personal and professional, on my web site **www.joxios.com**

I look forward to meeting and discussing any opportunities to work together.

Sincerely,

Jason Oxios

ARIZONA CUSTOM GOLF CLUBS

ABOUT GARY PRO SHOP LESSONS FITTING FAQS TESTIMONIALS CONTACT

OUR MISSION STATEMENT:
 To make the ultimate marriage between PGA Golf instruction and the custom building of golf equipment by certified club builders. One can not be separated from the other.

Video Series
Marriage of Instruction & Equipment
 by Gary Balliet

FAQ
 Why should I have custom built golf clubs?
 Did you know that only 1 out of every 1,000 golfers has a set of custom clubs built to swing specification, according to statistics gathered by the National Golf Foundation and the PGA of America?
[Read more about this in our FAQ section.](#)

WE HAVE THE MOST DETAILED FITTING SYSTEM FREE!
Free Detailed Analysis w/ purchase of clubs
 Every golfer's body and swing are unique to that individual—height, arm length, hand size and swing speed— all determine how golf clubs should be designed and fitted. Golf is a hard enough game—don't make it harder on yourself by using the wrong heads, shafts and grips. Our online FITTING System will ensure that each and every golfer, along with their own unique characteristics, is properly fit with custom golf clubs. A written dup fitting analysis for your file will be given FREE to any customer that purchases any custom built item from ArizonaCustomGolfClubs.com.

Child Crisis Center
 East Valley, Inc.

Mission Statement, Responsibilities and Goals

Child Crisis Center, East Valley, Inc., established in 1961, is committed to preventing child abuse and neglect. The Center's responsibilities are: providing temporary shelter in a nurturing environment for children whose well being is in jeopardy; supporting and strengthening families; and creating change through community education.

The Center's Shelter Program provides 24-hour care to children, birth through seven years, in a home-like atmosphere. Specially trained staff and volunteers care for each child in a protective, nurturing and enriching environment.

The Center's Family Support Program promotes the learning and development of parenting skills through non-judgmental support and resource linking.

The Center's Volunteer program offers opportunities for caring individuals to provide assistance to children and families in need.

The Center's Community Outreach Program acts as a significant link to the public by providing educational information regarding the Child Crisis Center and child abuse prevention, as well as initiating and responding to offers of financial support.

Proceeds from the purchase of this disc will go to the Child Crisis Center. Thank you for your support. For more information about donations and volunteer work, call the Child Crisis Center at (927) 582-2308.

Philosophy:

We believe that a web presence should be more than a static display of information. It should provide dynamic presentation features and data collection capabilities. This is the only way a company can truly leverage its own information assets, share resources and provide for interaction with its customers, employees, and vendors. The website visitor should experience ease in navigability, eye-appealing graphics and content that is useable and valuable. Furthermore, customer support should be available during the website visit.

Focus:

MicroStar International's primary line of business is full solution, custom Internet software application development and related business consulting services. The organization was formed out of a desire to provide medium sized and smaller businesses with the ability to grow by way of web-enabled software solutions. The challenges are unique for the mid-sized and smaller enterprises. That is why we are focused on helping them become competitive on the web without the need to invest large sums of money or hire additional staff.

The Internet and Your Business

Many people are excited about the powerful impact of the Internet on their current business, and their business' future. MicroStar International is focused on assisting organizations with evolving their marketing, operations, business strategy and existing technologies in order to create a solid foundation on the world-wide web.

Creating an effective website is just one step in guiding our clients to leverage opportunities on the Internet. Equally important to their success is working with them to understand their business goals and how the website fits in with their existing organization. Being successful on the Internet requires a carefully developed strategy and a process to weave the Internet into your business.

The three primary components of a successful web presence are:

Website

As the focal point of your presence it has to be useable, attractive and provide valuable content.

Support

Helping visitors at the site by being immediately responsive to orders, questions and emails.

Visitors

Creating marketing strategies that draw people to your website.

MicroStar International is unique in that it provides a team of managers, entrepreneurs, strategists and technologists to design, implement and operate all three of these components. We continue to work alongside our clients to bring synergy to the marketing, website and support functions to exceed their goals in this dynamic and competitive environment.

Successful Internet sites need to emphasize all three components with equal concern.

Teamwork:

We believe it takes a highly qualified, committed team to assure a successful Internet presence. We work with a company's management team, contracted professionals (accountants, advertising agents, direct marketing agents and management consultants) and operations personnel in order to incorporate the organization's primary business goals into the website.

The MicroStar team has experience in functions involving strategic consulting, financial planning and modeling, systems development, graphic design, process engineering, marketing and customer support. Our team partnered with the company assures that there are visitors to the website, the website works properly, and the customer will receive support. The company will also have the ability to measure the value of this part of the

Letter from the founder

More and more great companies are coming to Arizona every day. This past month, April 2008, the American West showcased Summit2000 and what a great day it was for all the business professionals that attended. It raises that curtain on the world's class business events. This month's event will be the Baby Boomers Eligo May 21st - May 23rd at the Phoenix Convention Center. Something you don't want to miss.

This month's cover photo is of a great Copier, Printer and Fax Company from California that has participated in the Valley "Coasting Over Arizona," Arizona in the right time and the right place for my nation, wide business. I trust you

will learn about the timing and placement for both local and national growth.

Next month we will be profiling some of our major Top Executive Business Women from Commercial Real Estate, Financial Services to Health. We plan on bringing you different types of Business Frontiers every month. Please contact us for more information and have a great month.

Disseminate yours in Business,

M. Karvonen Hentunen

M. Karvonen Hentunen Founder & CEO

P.S. See you at the Baby Boomers Eligo.

Related Skills

Experienced in sales and marketing to large and small business clientele. Highly proficient with computers and technology on both Mac and PC systems. Strong creative and technical capabilities in print and internet media. Able to delegate tasks, negotiate with vendors, write proposals and contracts. Strong communication skills and team player. Able to solve problems with creative solutions. Presentation oriented.

Objective

To provide value as a team member of a marketing or design firm using my experience in graphic design, marketing and research.

Experience

Colliers International *Marketing Coordinator 2003-Present*

Currently employed as the marketing coordinator for team Colliers101north. In charge of all marketing collateral for web, print and listing media. Produced all creative material including team web site, flyers, print ads, email marketing campaigns and marketing offer memorandums. Developed custom web-based reporting system. Worked in the Research Department with brokers to develop reports, marketing lists and comprehensive studies of properties for marketing purposes. Acted as public relations liaison for trade publication announcements.

The Creative Group *New York City, NY. Freelance Designer 2001-2003*

Worked directly with Marketing and Creative Managers as part of the design and production team. Designed and produced various marketing and packaging artwork for presentation at commercial sale. Developed logos, product identity and assisted in presentation set up and displays. Consulted management team to streamline production and meet deadlines.

Concord EFS *Tempe, AZ. Marketing Services 2000-2001*

Consulted and assisted clients to develop e-commerce web sites. Designed and printed marketing material for e-commerce division. Researched payment gateways and competitive payment processors. Created marketing collateral and trade show material

Synergy Productions *Phoenix, AZ. Account Manger 2000-1999*

Consulted, designed and produced various marketing collateral for both web and print media. In charge of all print related products and services. Involved with extensive project tracking, contract and proposal writing and task assignment. Managed design staff of four full time employees.

MicroStar International *Scottsdale, AZ. Project Manager 1999-2000*

Print and web account supervisor. Managed client's digital and print needs. Acted as a design consultant for web sites, business identities, and print collateral. Involved with in-house marketing and sales. Developed networking strategies in coordination with sales and marketing staff.

DO Design *Scottsdale, AZ. Project Manager 1997-1999*

Managed marketing and advertising campaigns. Jobs included web site development and maintenance, designing print ads for national and local publications, print consulting and management. Handled production and design for business publications and magazine spreads.
